

Finances don't have to be a **Mt. Everest** of debt

FEI has a solution

FEI provides a confidential financial services benefit at no cost to you. From home purchasing education to debt management, your financial benefit connects you with a professional financial counselor for a telephone consultation on a financial matter. You can also receive information and referrals for further assistance, if needed.

Financial Services

fei workforce
resilience

“Managing loan debt has caused plenty of sleepless nights thinking about the financial burdens for my family. Luckily my colleague told me about the financial services offered through our EAP benefit, and I can breathe easy knowing a financial counselor is helping me develop a debt management plan.

I worked hard to attend college and get a degree but despite my scholarships, I still graduated with more than \$30,000 in student loan debt. I enjoy my job and make good money, but I've barely been able to manage my loan debt, provide for my kids, make car payments and handle bills. Taking advantage of the financial services through the EAP has been a real lifesaver.”

1
