

Videotape Assessment Worksheet Brown's Interaction Analysis System

This worksheet is designed to help you chart the types and frequencies of classroom interactions.

As you watch a segment of the videotape, stop every five seconds and make a check mark in one of the three columns. Total the number of check marks in each column. For more detail, record a **Q**, for question, each time you or a student asks a question

Instructor Talk	Student Talk	Silence
Total:	Total:	Total:
